## **Industrial Training Presentation on RUDYARD WATCHES**

Submitted to:  
Dr.Priyanka Yadav

Assistant Professor, IT  
Department

Session: 2024-25

Presented By : RUDRA PRATAP  
SINGH

Roll number : 23ESKCA091

Batch : G1

# CONTENT

- 1. INTRODUCTION**
- 2. OBJECTIVE**
- 3. KEY FEATURES**
- 4. Some Screenshots for reviews**
- 5. Technology & Platform overview**
- 6. Conclusion**
- 7. FUTURE WORKS**

# INTRODUCTION

A VERY GOOD MORNING TO EVERYONE !!

My name is Rudra Pratap Singh and my project is a E-Commerce website for Watches ,

showcasing services, accommodations, and understanding the choices of customers ,

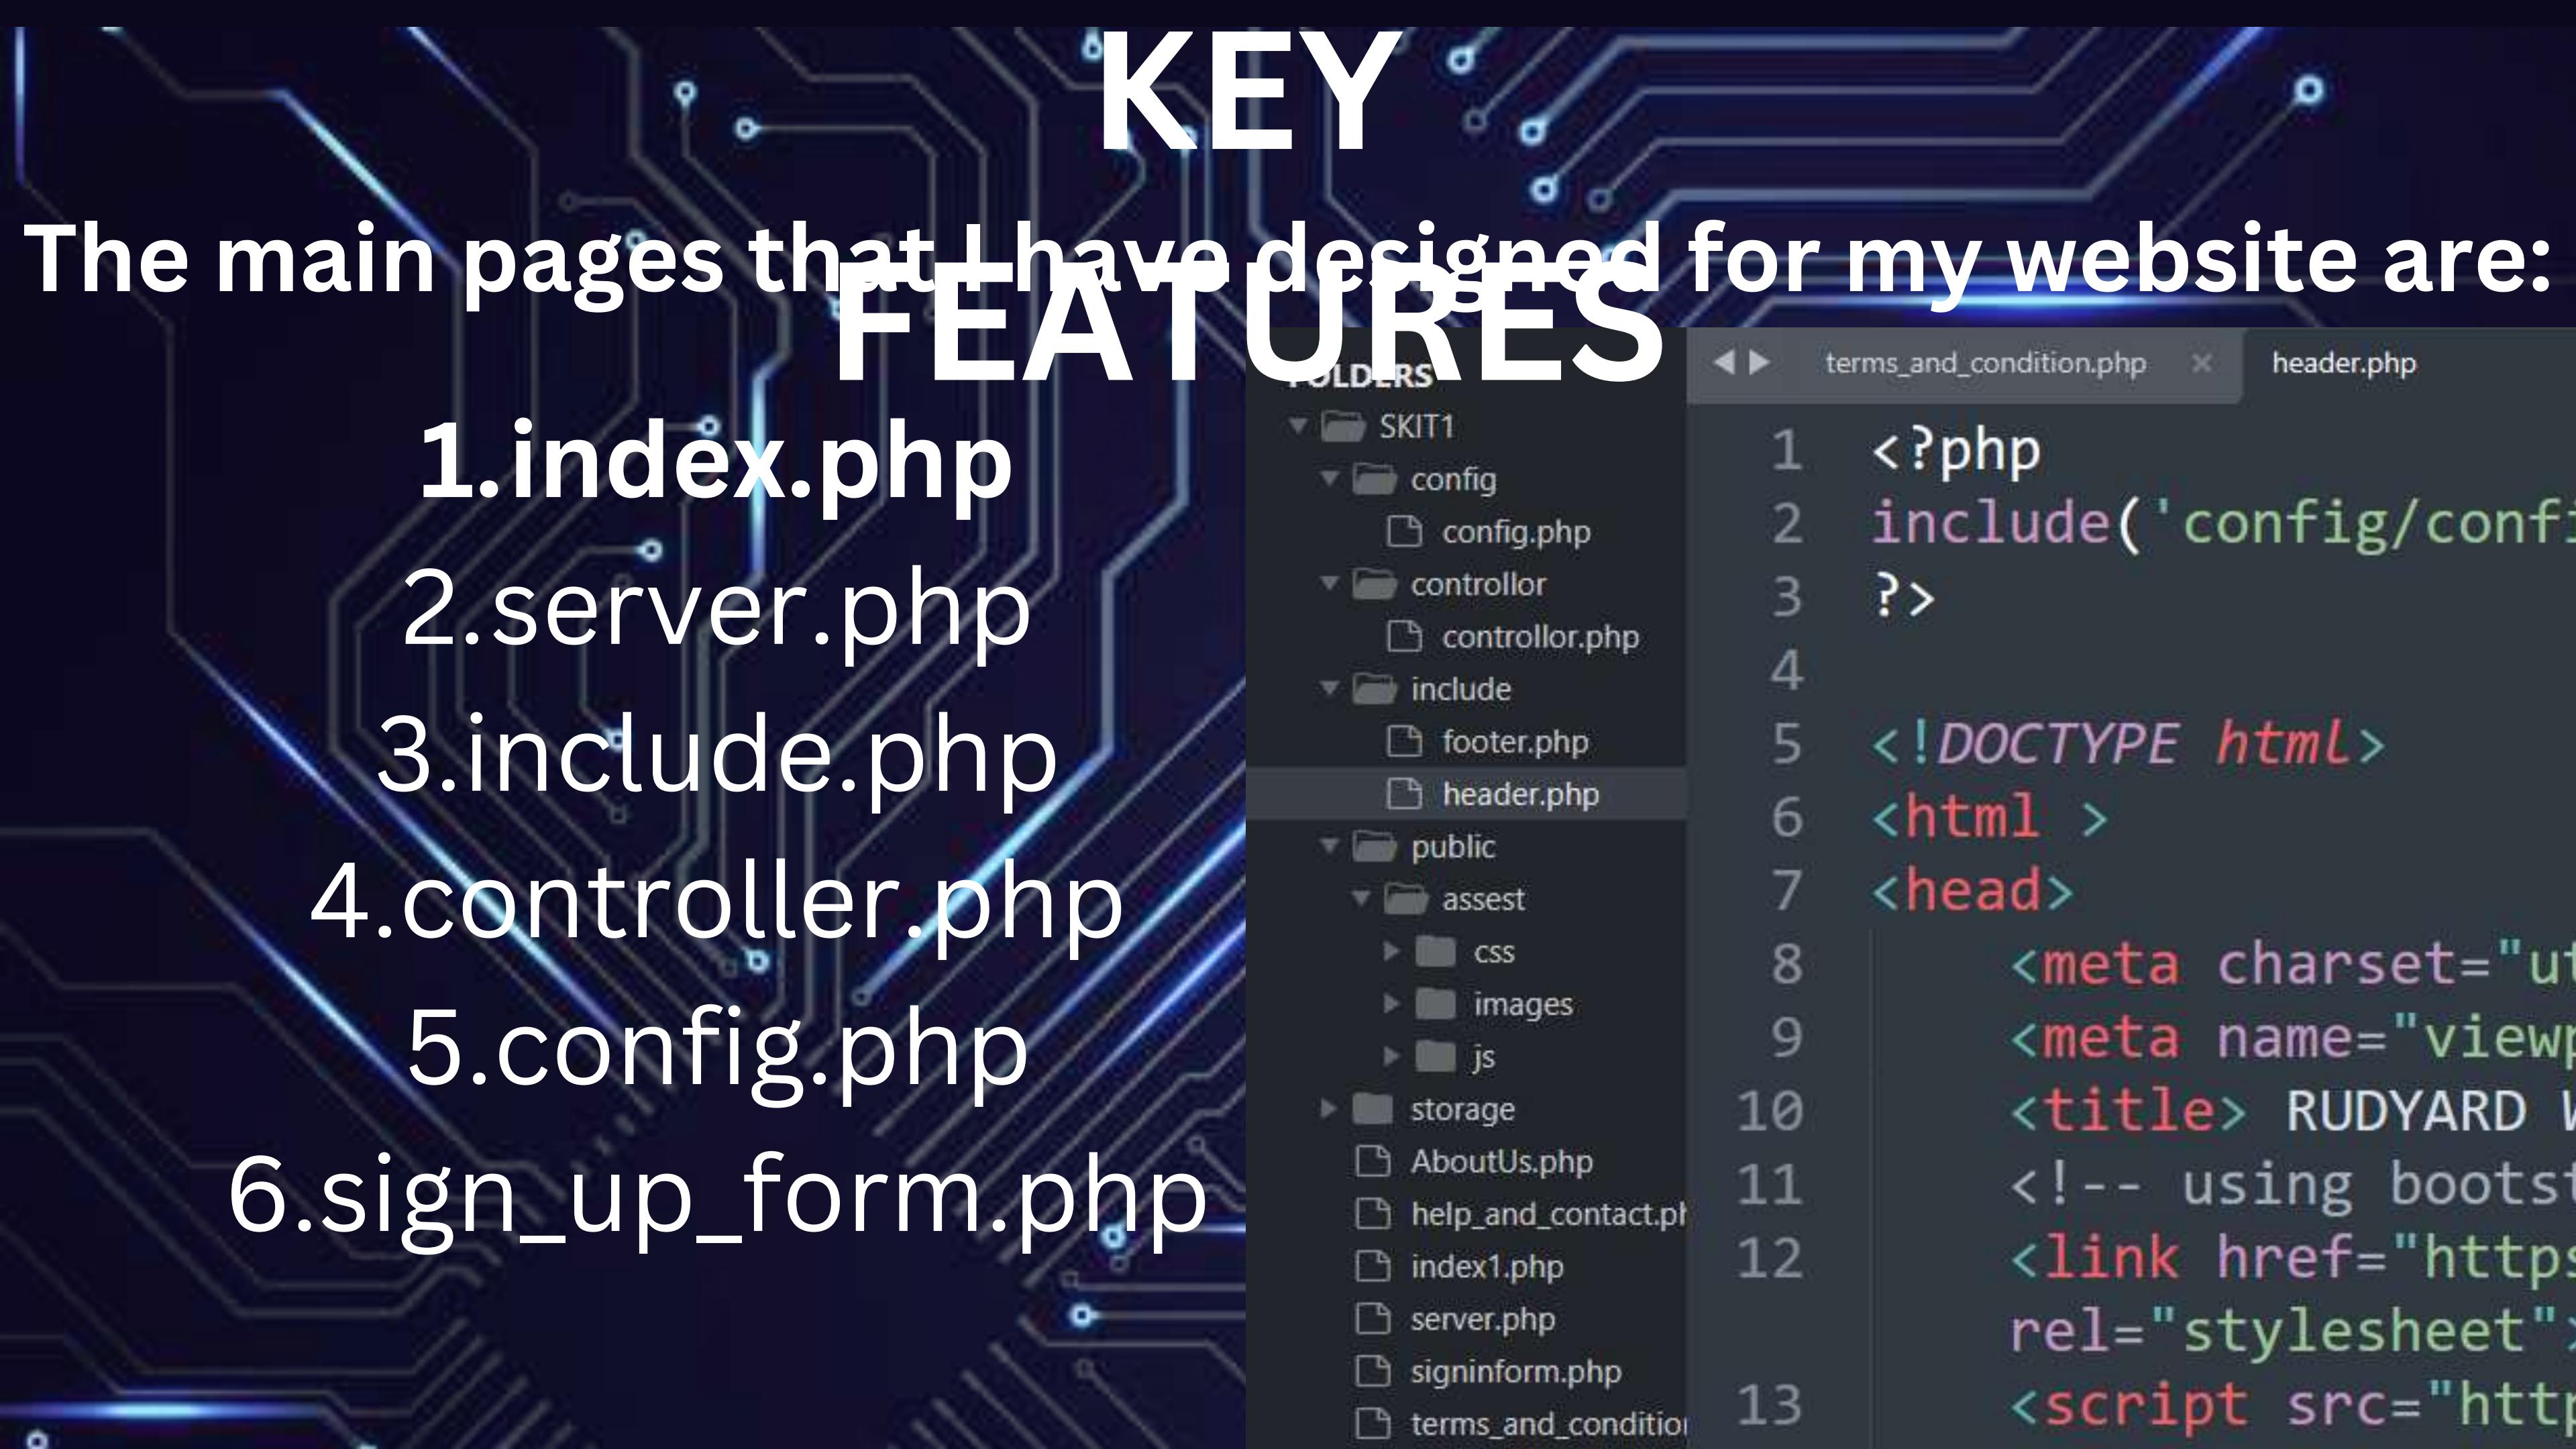

which includes best products of some named brand like TITAN ,  
ROLEX ,SONATA , etc.

# OBJECTIVE

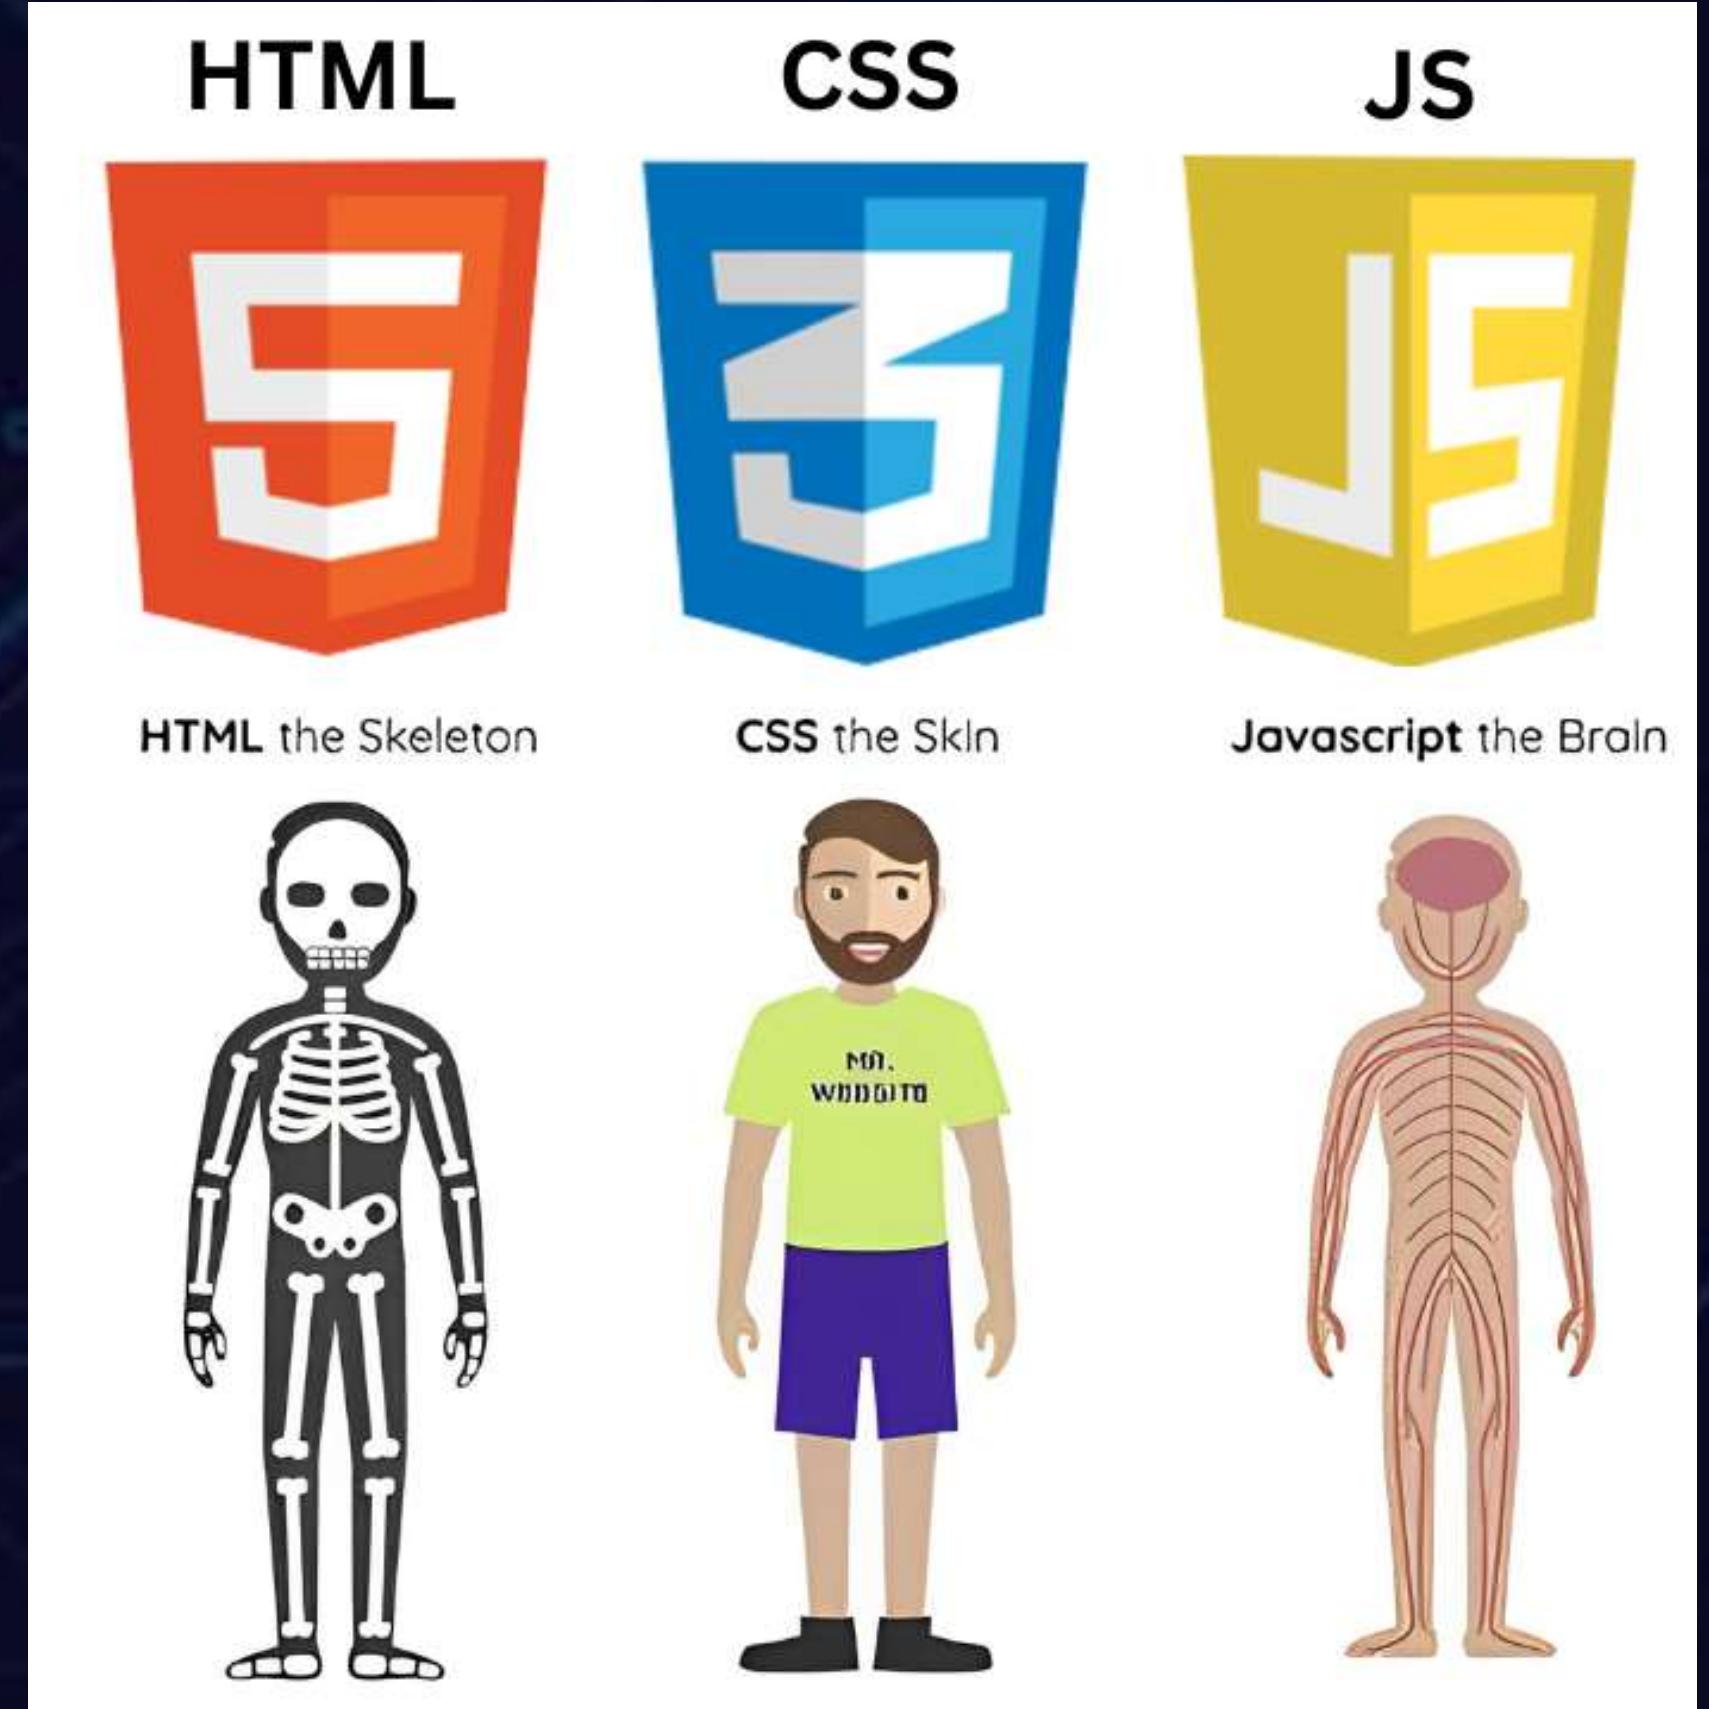

1. The primary objective of industrial training project is to familiarize students with real-world work scenarios.
2. It aims to bridge the gap between academic knowledge and practical application.
3. To create a fully responsive website using the Bootstrap framework, ensuring optimal user experience across various devices and screen sizes.
4. To develop an intuitive and user-friendly interface that provides easy navigation and interaction.

# TECHNOLOGY & PLATFORM OVERVIEW

1. HTML
2. CSS
3. JAVA SCRIPT
4. PHP
5. BOOTSTRAP
6. JQUERY & MYSQL

# **HTML : HyperText Markup Language**

It is the standard language used to create and design web pages. It provides the basic structure for a web document by defining elements like headings, paragraphs, links, images, and other content.

**HTML is used in web development for building :**

1. Structure and Layout
2. Creating Links and Navigation
3. Forms and User Input
4. Tables and Data
5. Using Div and Span
6. Comments

# CSS : Cascading Style Sheets

CSS (Cascading Style Sheets) is crucial in web development for defining the visual presentation . CSS is responsible for how that content looks

**CSS is used in web development for building :**

1. Styling and layout
2. Responsive design
3. Enhanced user experience
4. Accessibility

# JAVA SCRIPT

JavaScript is a versatile programming language commonly used to create interactive effects within web browsers.

Mastery of JavaScript allows developers to build engaging and functional web pages and applications.

## Basic Uses of JavaScript in Web Development

:

1. Handling Events
2. Form Validation
3. Creating Animations

# PHP : Hypertext Preprocessor

PHP is a widely-used, open-source server-side scripting language designed specifically for web development. It is embedded within HTML and interacts with databases to create dynamic, interactive websites and web applications.

## Basic Uses of PHP in Web

### Development

1. Generating Dynamic Content
2. Interacting with Databases
3. Session and Cookie Management
4. Frameworks
5. Email Handling

# jQuery & MySQL

1. jQuery is a fast, lightweight, and feature-rich JavaScript library. It simplifies HTML document traversal and manipulation, event handling, and animation, and it is easy to use with AJAX for asynchronous data loading.
2. MySQL is a popular relational database management system used to store and manage data for web applications. It uses SQL (Structured Query Language) for querying and manipulating the database.

## SOME MASTER PIECES TO SHOW

**ROLEX**

Rolex has three watch lines: Oyster Perpetual, Professional and Cellini (the Cellini line is Rolex's line of "dress" watches).

[Read More..](#)

**TITAN**

Best Product Design of the year-Watches & Jewellery" award by Red Dot for Skeletal Edge for 2014 .A luxury watch is crafted by skilled artisans.

[Read More..](#)

**BOAT**

The company has websites in nine markets and eight languages, listing over 350,000 boats in approximately 152 countries.

[Read More..](#)

Rolex, widely regarded as one of the premier luxury watch brands globally, has a reputation for luxury and exclusivity. The Rolex Submariner is an iconic dive watch, renowned for its timeless design, water-resistance up to 300m, and a range of features such as a unidirectional bezel and Oyster bracelet. These characteristics have made the Submariner a top choice among the best affordable watch brands, as well as a popular choice for those seeking a high-end timepiece, like Rolex watches.

For those who prefer a sportier look, the Submariner can be paired with a rubber strap, which complements its bold black dial and luminous hour markers beautifully. Whether worn for a dive or a formal event, the Rolex Submariner's combination of style, durability, and functionality makes it a must-have addition to any watch enthusiast's collection.

SURROUNDING  
DEER

watch enthusiast's collection.

**"The hours of folly are measured by the clock, but of wisdom, no clock can measure. All clocks break, and what breaks them is Time. The watch is the first thing that you put on in the morning and the last thing you take off at night. You can't judge a watch by its dial."**

## BRAND PROTECTION

At Rudyard Watches, we take immense pride in crafting the best-in-class watches that are designed to stand the test of time. As we strive to ensure a trustworthy shopping experience for our customers, it is important to note that sale of counterfeit products is illegal. However, we've noticed that there are counterfeit products being sold in the market, and we take this matter very seriously.

Counterfeit products are fake copies of the original products that are designed to deceive customers into believing that they are purchasing genuine products. Unfortunately, these counterfeit products are usually of inferior quality and can cause problems to customers.

Counterfeitors often use low-quality materials and substandard manufacturing processes, which can result in watches that may break or malfunction easily. These watches may also contain harmful chemicals or materials, which can cause skin irritation, allergies, or other health problems. In addition, counterfeit watches don't come with after-sales support and warranty that authentic watches offer. So, if a customer encounters any issues with their counterfeit watch, they won't be able to get any support or repair services from Us.

Here are some things to keep in mind when identifying counterfeit watches:

- A. Price:** If the price seems too good to be true, it probably isn't authentic. Counterfeitors will often sell their watches at much lower price than the authentic watches, which is a clear indication that something is amiss.
- B. Packaging:** Check the packaging carefully. Often counterfeit watches will come in packaging that looks similar to the real thing but with small differences, such as the font or the logo.
- C. Quality:** Our watches are built to last, so if the quality of the watch seems poor or feels cheap, it's likely a counterfeit.
- D. Warranty:** All watches come with a warranty. If the seller cannot provide a warranty or offers a warranty that seems questionable, it's likely that the product is counterfeit.
- E. Unique Identification:** All our genuine watches come with a Unique Identification Number embossed on the back cover of the watch or remain there in the form of a Code.

We need your help to protect Our brand. If you come across any suspicious activity, we urge you to report it to us immediately . Please share this information with your friends and family so that they too can avoid counterfeit products and enjoy the quality and trust of Us.

You can help by buying only from our official channels and authorized dealers. We only partner with retail and e-commerce brands that share our values and ethical standards. Our list of authorized retail partners includes our official retail outlets - Titan World, Fastrack Store, Helios, our authorized dealers and our retail partners like Shoppers Stop, Lifestyle, Croma, Trends Vijay Sales and Pantaloons. You can also purchase original watches directly from our official e-commerce platforms and our authorized e-commerce partners Amazon, Flipkart, Tata Cliq, Nykaa, Myntra, Ajio and FirstCry.

# CONCLUSION

This training was a great experience. From this project , I acquired deeper knowledge concerning my technical skills. There are huge opportunities available for the students who want to work in this field. An experienced person in this field can work as a freelancer, or in an IT firm, or as a software engineer, or can pursue carrier in web designing.

# FUTURE WORKS

1. To build a AI Chatboat which provides suggestion .
2. Online payment option i.e. direct link from bank.
3. Grabbing offers by scratching cards.
4. Feature of live chat.

# THANK YOU
